

Richard J. Arsenault Appointed to Leadership Role in Zicam Cases

United States District Court for the District of Arizona, Judge Frederick J. Martone has appointed Attorney Richard J. Arsenault to serve on the Personal Injury Plaintiffs' Steering Committee for the national Zicam multi-district litigation.

With this appointment, Arsenault will now serve an important role in the litigation against the makers of the over-the-counter cold remedy, Zicam.

The Plaintiffs' Steering Committee often referred to as the "PSC" will conduct and coordinate the discovery in the Zicam litigation and will act on behalf of all plaintiffs during the pretrial proceedings.

A veteran of class action and complex litigation, Richard J. Arsenault and his partners actively represent victims who have lost their sense of smell after having used Zicam.
